

# Late Cretaceous-Paleocene percomorphs (Teleostei) from India – Early radiation of Perciformes

Gloria ARRATIA, Adriana LÓPEZ-ARBARELLO, Guntupalli V. R. PRASAD,  
Varun PARMAR & Jürgen KRIWET

## Abstract

A new taxon of Percoidei, *Indiaichthys bamanborensis* n. gen. et sp. and a Percomorpha indet. from the intertrappean beds at Bamanbor, India (Late Cretaceous to early Paleocene age) are described and their systematic positions are discussed. The Indian material is represented by articulated specimens that are some of the most complete Late Cretaceous – Paleocene perciforms recovered until now. Due to its generalized morphological pattern, with some resemblances to certain centropomids (e.g., development of the ascendent and articular processes of the premaxilla, two epurals, and two uroneurals) and its unique combination of features (e.g., partial fusion of distal radials in the most anterior dorsal pterygiophores, dentigerous arm of premaxilla very deep posteriorly, co-occurrence of two epurals and two uroneurals), *Indiaichthys* cannot be assigned to any of the fossil or extant percoid families and it is left in a family indeterminate. In contrast to *Indiaichthys*, Percomorpha indet. is known by one incomplete but nevertheless rather informative specimen. According to the available information, it shares with some centropomids the peculiar morphology of the posterior region of the lower jaw. However, due to its incompleteness it cannot be assigned to any percomorph group.

Articulated Late Cretaceous-Paleocene perciforms are represented by few specimens that have been recovered in different continents. For instance, the extinct genera *Eoserranus* and *Indiaichthys* n. gen. (India), *Nardoichthys* (Italy), and *Saldenioichthys* (Argentina) and the extant genus *Percichthys* (Bolivia). Due to their combination of characters *Nardoichthys* and *Saldenioichthys* are interpreted as Perciformes incertae sedis, and *Eoserranus* and *Indiaichthys* as Percoidei incertae sedis. The oldest articulated perciform, *Nardoichthys*, was recovered in sediments of about 71 Ma in age; in contrast, the oldest perciform otoliths are about 85 Ma old and were recovered in Austria. Because there are only a few Late Cretaceous records of otoliths and skeletal remnants of extinct perciforms, it is apparently that many of the extant families arose during the Eocene-Miocene. However, the fossil record is still poor in comparison to the enormous diversification of perciforms today. Even considering the incompleteness of the fossil record, the available information indicates that perciforms underwent a tremendous radiation during the last five millions years.

## Introduction

The order Perciformes is the most diversified of all fish orders and contains 18 suborders, 148 families and over 9,000 extant species and a few extinct taxa (NELSON 1994). Despite the enormous species diversity shown by the Recent forms, very little is known of the evolutionary history of the group. Perciformes are moderately well known from Tertiary sediments, especially beginning in the Eocene, and are represented by articulated and fragmentary well-preserved specimens from certain localities in Europe (see for instance OBRHELOVÀ 1971, SORBINI 1970, BLOT 1980, MICKLICH 1985, 1988a, b, 1989, 1990, BELLWOOD & SORBINI 1996, BANNIKOV & TYLER 2002, TYLER & BANNIKOV 2002), Asia (e.g., YABUMOTO & UYENO 1994, 2000), Africa (e.g., VAN COUVERING 1982, GREENWOOD 1972, 1983, OTERO & GAYET 1999a, b, MURRAY 2000, 2002), North America (e.g., GRANDE 1984, FIERSTINE 1999, 2001), and South America (e.g., SCHAEFFER 1947, CASCIOтта & ARRATIA 1993; for other localities see ARRATIA &

## The whole contribution can be purchased as PDF file.

### Availability

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:

pdf@pfeil-verlag.de.

### The PDF files are protected by copyright.

The PDF file may be printed for personal use.

The reproduction and dissemination of the content or part of it is permitted.

It is not allowed to transfer the digital personal certificate or the password to other persons.

### Prices

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),  
and

0.50 EURO per page, beginning with the 11<sup>th</sup> page.

Page numbers are found in the contents of the publications.

### Orders

Use our order form for PDF files or send your order informal per e-mail (pdf@pfeil-verlag.de). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

### Handling

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webpage, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

## Dieser Beitrag kann als PDF-Datei erworben werden.

### Verfügbarkeit von PDF-Dateien

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an pdf@pfeil-verlag.de.

### Die PDF-Dateien sind urheberrechtlich geschützt.

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

### Preise

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),  
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

### Bestellungen

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail (pdf@pfeil-verlag.de) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

### Abwicklung

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
