

# ‘Mid’-Cretaceous fish faunas from northeast China

CHANG Mee-mann

## Abstract

The ‘mid’-Cretaceous fish faunas from northeast China are distributed mainly in Songliao Basin, Heilongjiang and Jilin Provinces and in a series of small basins that extend east to Songliao Basin. In contrast to the early Early Cretaceous endemic †*Lycoptera*-fauna from North China the members of the ‘mid’-Cretaceous (approximately Aptian-Cenomanian) fish faunas from northeast China find their contemporary relatives either in neighboring areas or even in regions long distance away. Included in these faunas are species belonging to Osteoglossomorpha and Euteleostei. Those from the late Early Cretaceous are osteoglossomorphs (†*Plesiolycoptera daqingensis* ZHANG & ZHOU 1976, †*Jiaohichthys pulchellus* MA 1983, †*Pulinia baojiatunensis* MA 1983 and †*Yanbiania wangqingica* LI 1987) and primitive euteleosts (†*Manchurichthys uwatokoi* SAITO 1936, preliminarily referred to Salmoniformes incertae sedis). Those from the Late Cretaceous fish fauna are primitive euteleosts (†*Sungarichthys longicephalus* TAKAI 1943 and †*Jilingichthys rapax* ZHOU 1976, both preliminarily referred to Salmoniformes incertae sedis), a neoteleost (†*Hama macrostoma* ZHOU 1976), and a single tooth of Selachii. The osteoglossomorphs of approximately the same age are also found in the adjacent areas of North America. The primitive euteleosts and neoteleosts seem to have wider distribution, possibly related to the Late Cretaceous general transgression in the northern hemisphere. Comparison of †*Jiaohichthys* and †*Yanbiania* shows surprising morphological similarity between the two genera and the necessity of inclusion of †*Jiaohichthys* in further phylogenetic analyses of osteoglossomorphs. The stratigraphical distribution of the fishes shows different combinations in different formations. The lower (older) formations contain osteoglossomorphs and basal euteleosts, while the higher one contains only osteoglossomorphs and the highest one – basal euteleosts, a neoteleost, and a selachian tooth. The successive change of some groups of fishes in the section is obviously age-related while the presence or absence of certain groups of fishes in certain formations is suggested to be related to different environments in which the fishes occur.

## Introduction

This paper is an English summary of four papers written by CHOW, LIU and myself in the late seventies (1976–1977) on ‘mid’-Cretaceous fish faunas from northeast China with references to MA (1983) and LI (1987). Due to the special circumstances in the 70ies no English summaries were attached to the former four papers. So it is worthwhile to introduce the faunas described in those four papers in English for the access of those workers who do not read Chinese, though for the full descriptions the readers should still refer to the Chinese texts. Additional observations of some of the specimens are also given in order to clarify the states of certain characters.

The well-known early Early Cretaceous Jehol Fauna contains a series of forms that only occur in the areas of North China (including the western part of northeast China), Mongolia, and Zabaikalia (southern part of Siberia), an area approximately between the Turgai Strait on its western, Bering Strait on its eastern and Qingling Mountains on its southern side. The members of this fauna are not known from anywhere else in the world during the early Early Cretaceous though relatives of the main groups of this fauna are present in the Late Cretaceous, Tertiary fish faunas from western, and Recent fish faunas from eastern and southeastern North America (PATTERSON 1981, CAVENDER 1986, LU 1994, CHANG & JIN 1996) (Table 1). In contrast to the early Early Cretaceous endemic fish fauna from northern China some groups of fishes (e.g., osteoglossomorphs) from ‘mid’-Cretaceous of northeast China find close relatives in more or less contemporary sediments of the adjacent regions of North America while some other groups (e.g., euteleosts) even bear certain cosmopolitan character.

# **The whole contribution can be purchased as PDF file.**

## **Availability**

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:  
[pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de).

## **The PDF files are protected by copyright.**

The PDF file may be printed for personal use. The reproduction and dissemination of the content or part of it is permitted. It is not allowed to transfer the digital personal certificate or the password to other persons.

## **Prices**

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),  
and

0,50 EURO per page, beginning with the 11<sup>th</sup> page.

Page numbers are found in the contents of the publications.

## **Orders**

Use our order form for PDF files or send your order informal per e-mail ([pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de)). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

## **Handling**

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webspace, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

# **Dieser Beitrag kann als PDF-Datei erworben werden.**

## **Verfügbarkeit von PDF-Dateien**

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an [pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de).

## **Die PDF-Dateien sind urheberrechtlich geschützt.**

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

## **Preise**

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),  
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

## **Bestellungen**

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail ([pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de)) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

## **Abwicklung**

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
