

Mesozoic fishes from Chile

Gloria ARRATIA & Hans-Peter SCHULTZE

Abstract

Fossil fishes are known from few Chilean localities ranging from the Paleozoic to the Quaternary. Among these, the Jurassic localities of the Cordillera de Domeyko in northern Chile are outstanding because of the presence of basal teleosts among a diversified fish fauna. In addition, preservation is of special quality including soft tissue structures.

Perleidiforms are reported for the first time from the Triassic of Chile (Quebrada San Pedrito). Recently, numerous small proleptolepid teleosts, belonging to a new genus, were recovered from Sinemurian localities of Quebrada La Carreta, as well as a new coelacanth from a Sinemurian locality at Vaquillas Altas (the first record from Chile). The proleptolepids represent at least two forms. They differ from the European proleptolepids in size of the maxilla and jaw dentition. They add important new information on the neurocranium, hyoid arch, and pectoral girdle. Several teleostean species and a few halecostomes are known from the Oxfordian of Cerritos Bayos, Quebrada del Profeta, and Sandón. Most teleosts represent endemic groups. The pachycormiforms, pycnodontiforms, and semionotiforms have not been studied in detail but apparently correspond to taxa that have a cosmopolitan distribution. The earliest record of a pachyrhizodontoid fish is reported from the Upper Jurassic locality Termas del Flaco in central Chile. The first record of aspidorhynchiforms in Chile is reported from the Lower Cretaceous of Lomas Negras near Calama in northern Chile; differences in the predeontary and opercular bones do not permit us to assign this material to any known genus.

Introduction

The greatest quantity and diversity of fossil vertebrates collected in Chile are from Mesozoic sediments (GASPARINI 1979). This statement also is true for fishes. Outside the Mesozoic Chilean fishes are known only from one Paleozoic fish from Quebrada Sipico, close to the Salar de Atacama, northern Chile (RICHTER & BREITKREUZ 1997) and isolated fish scales and teeth of undetermined palaeoniscoids from the Carboniferous of Quebrada Chinchas (BELL 1985), and from several Miocene ostariophysan and percormorph teleosts from the Lonquimay and río Queuco areas, south-central Chile (CHANG et al. 1978, ARRATIA 1982a, RUBILAR & ABAD 1990, RUBILAR 1994, ARRATIA & CIONE 1996, AZPELICUETA & RUBILAR 1997, 1998).

The initial research on fossils of Chile was conducted by non-paleontologists, by zoologists and geologists. The first publication in which Chilean fossil fishes are mentioned is by the naturalist PHILIPPI (1887). The remains are from Tertiary and Quaternary deposits mainly containing shark teeth. The next publication on fossil fishes is by OLIVER SCHNEIDER (1936). He described material from the Upper Cretaceous of Quiriquina Island and from the shore near Concepción, south-central Chile. He mentioned shark teeth and teleostean fragments together with plesiosaurs. Most early finds were made by geologists during geological surveys. The geologist BIESE (1957, 1958, 1961) reported Late Jurassic and Cretaceous fishes (also crocodiles, ichthyosaurs, and plesiosaurs) from northern Chile. More recently, several well-preserved fossil fishes, mainly teleosts, were described by the authors from the Upper Jurassic of Cordillera de Domeyko (see Appendix). Numerous specimens from that region remain undescribed.

The best preserved and best known fossil fishes from Chile are those from the Oxfordian localities of Cordillera de Domeyko. However, there are other Mesozoic localities bearing fossil fishes that will be presented here. All these localities, with but two exceptions, are marine.

The whole contribution can be purchased as PDF file.

Availability

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:

pdf@pfeil-verlag.de.

The PDF files are protected by copyright.

The PDF file may be printed for personal use.

The reproduction and dissemination of the content or part of it is permitted.

It is not allowed to transfer the digital personal certificate or the password to other persons.

Prices

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),
and

0.50 EURO per page, beginning with the 11th page.

Page numbers are found in the contents of the publications.

Orders

Use our order form for PDF files or send your order informal per e-mail (pdf@pfeil-verlag.de). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

Handling

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webpage, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

Dieser Beitrag kann als PDF-Datei erworben werden.

Verfügbarkeit von PDF-Dateien

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an pdf@pfeil-verlag.de.

Die PDF-Dateien sind urheberrechtlich geschützt.

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

Preise

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

Bestellungen

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail (pdf@pfeil-verlag.de) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

Abwicklung

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
