

The phylogenetic relationships of *Rubiesichthys gregalis* and *Gordichthys conquensis* (Ostariophysi, Chanidae), from the Early Cretaceous of Spain

Francisco José POYATO-ARIZA

Abstract

Two small teleostean fishes from the Early Cretaceous of Spain, *Rubiesichthys gregalis* and *Gordichthys conquensis* were considered related to the gonorynchiform family Chanidae when first described. Here, a cladistic analysis was carried out to establish their phylogenetic relationships. The ingroup included living and fossil forms traditionally assigned to the Chanidae, as well as other otophysans. A set of 55 characters of six genera was polarized by outgroup comparison with *Elops* and *Diplomystus*. The results confirm that the Otophysi (represented by the cyprinid *Opsariichthys*) is the sister group to the Gonorynchiformes, which are monophyletic. Within the order Gonorynchiformes, *Chanos* is the sister group to [*Tharrhias* + [*Rubiesichthys* + *Gordichthys*]]. This set of relationships shows that the family Chanidae is a clade; its monophyly is supported by 11 synapomorphies, eight of which are uniquely derived characters. *Rubiesichthys gregalis* and *Gordichthys conquensis* are, therefore, chanid fishes, as previously assigned; in addition, they are sister taxa. This analysis also indicates that some fossil forms are included with the Recent *Chanos* in the family Chanidae. This hypothesis of relationships also implies that fusion within the caudal endoskeleton arose independently in the Chanidae. In addition, the resultant interrelationships present temporal incongruences. These problems reveal the need to re-examine other fossil forms that have been traditionally considered chanids. Such a re-examination would allow clarification of the diagnosis of the family, as well as the phylogenetic relationships within the family, and with other gonorynchiforms.

Introduction

The Lower Cretaceous lithographic limestones of Montsec (Lérida, Spain) and Las Hoyas (Cuenca, Spain) have yielded a rich, diverse ichthyofauna. Recent accounts include: WENZ (1991) and BARALE et al. (in press) for Montsec; SANZ et al. (1988), POYATO-ARIZA (1989), and WENZ & POYATO-ARIZA (in press) for Las Hoyas; and POYATO-ARIZA & WENZ (1990) for the entire Early Cretaceous of Spain. Among the teleosts, two small forms have been previously identified as gonorynchiforms: [1] *Rubiesichthys gregalis* (Fig. 1A) was described by WENZ (1984). This author placed *Rubiesichthys* in the family Chanidae on the basis of several morphological characters. This fish is revised by POYATO-ARIZA (this volume). [2] *Gordichthys conquensis* (Fig. 1B), Las Hoyas endemic, was described and provisionally placed as an incertae sedis gonorynchiform by POYATO-ARIZA (1994), suggesting affinity to the Chanidae. POYATO-ARIZA (1991) studied *Gordichthys* and revised *Rubiesichthys*, proposing a hypothesis of their phylogenetic relationships; the cladistic analysis conducted in that work included both fossil and Recent gonorynchiform fishes. The present paper brings new data to address this problem.

The family Chanidae contains one Recent form, the milkfish, *Chanos chanos*. The genus *Chanos* was created by LACEPÈDE (1803) as a substitute for *Mugil chanos* FORSSKÅL (1775) (see HUREAU & MONOD 1973: 322 for spelling of FORSSKÅL). Most of the fossil taxa traditionally placed in the family Chanidae are from Early Cretaceous sediments. In addition to the Spanish forms, the following Early Cretaceous fish have been placed in the Chanidae: *Aethalionopsis robustus* (TRAQUAIR 1911, GAUDANT 1966, TAVERNE

Availability

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:

pdf@pfeil-verlag.de.

The PDF files are protected by copyright.

The PDF file may be printed for personal use.

The reproduction and dissemination of the content or part of it is permitted.

It is not allowed to transfer the digital personal certificate or the password to other persons.

Prices

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),
and

0.50 EURO per page, beginning with the 11th page.

Page numbers are found in the contents of the publications.

Orders

Use our order form for PDF files or send your order informal per e-mail (pdf@pfeil-verlag.de). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

Handling

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webpage, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

Dieser Beitrag kann als PDF-Datei erworben werden.

Verfügbarkeit von PDF-Dateien

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an pdf@pfeil-verlag.de.

Die PDF-Dateien sind urheberrechtlich geschützt.

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

Preise

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

Bestellungen

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail (pdf@pfeil-verlag.de) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

Abwicklung

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
