

Mesozoic fish faunas of China

Mee-Mann CHANG & Fan JIN

Abstract

The information on the geographical and geological occurrences and composition of Mesozoic fish faunas of China summarized in this paper shows successive changes of major groups of actinopterygians through Mesozoic from faunas dominated by comparatively primitive actinopterygians in Triassic and Jurassic to faunas dominated by primitive teleosts in Late Jurassic to Early Cretaceous, then to those dominated by “euteleosts” in the “Middle Cretaceous”. The Triassic and Jurassic fish faunas have certain cosmopolitan character. The Late Jurassic to Early Cretaceous fish faunas from different areas of China are of a complex nature. The northern *Lycoptera* fauna exhibits striking endemism; the southeastern *Mesoclupea* fauna is similar to those of Brazil and West Africa; and the northwestern pholidophoriform *Siyuichthys* fauna has a not quite certain relationship with the contemporaneous one from Victoria, Australia. The “Middle Cretaceous” fish fauna from northeastern China shows again more or less cosmopolitan feature.

Introduction

The first scientifically studied fossil fish from China, *Lycoptera davidi* (SAUVAGE 1880), is among the Mesozoic ones though the fish was then referred to the genus *Prolebias* and the age was designated as Tertiary (TUNG 1923, CHANG & SHEN 1992). From then on 106 species belonging to 73 genera from more than 100 localities have been reported. Among them those from the Upper Jurassic to/Lower Cretaceous have been most extensively excavated and intensively studied, whereas those from the Lower Triassic to Middle Jurassic are sporadic finds and the Upper Cretaceous ones are mainly known from the northeastern part of China.

The geographical distribution of Mesozoic fishes of China is, conceivably, related to the paleogeographical background of the area. As suggested by WANG et al. (1985), at the beginning of the Triassic period the paleogeographic outline of China was “sea in the south and land in the north”, retaining the main features of Late Permian; and the structural trend was, on the whole, east-west oriented (Fig. 1). The tectonic and paleogeographic pattern underwent considerable changes during the Mesozoic Era, as the result of the Indosinian movement. Starting from Late Triassic, the Early Triassic configuration was gradually replaced by the formation of an overall landmass by withdrawal of sea from the southern part to the southwest (Fig. 2). Differences between north and south switched to differences between east and west. While the western part continued to show an east-west oriented structural trend the tectonic pattern of the eastern region shifted to an obvious NE-SW one. The Paleo-Qinling and Dabie Mountains played a substantial role as a barrier, or at least as a partial barrier, between the north and south in the eastern region of China during Late Triassic and later (Figs. 3, 4). Within this framework the following brief survey of Chinese Mesozoic fishes is presented.

Though a résumé of Jurassic fish distribution, including that of China, was already given in SCHAEFFER & PATTERSON (1984), the detailed information of all Mesozoic fishes from China, i.e. the occurrences, taxa, horizons, main associated fossils where available, and location of specimens, is summarized in the following section of this paper. The data are presented in chronological sequence starting from the Early Triassic, following localities numbered succeedingly through the text and in the figures. The spelling of names of authors, localities, and stratigraphic units appears differently in the earlier and later papers due to the change of the way of romanization of the Chinese language in the mainland of China in 1979 from the Wade-Giles system to Pinyin (Chinese phonetic alphabet) system. To avoid confusion, the names of

The whole contribution can be purchased as PDF file.

Availability

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:

pdf@pfeil-verlag.de.

The PDF files are protected by copyright.

The PDF file may be printed for personal use.

The reproduction and dissemination of the content or part of it is permitted.

It is not allowed to transfer the digital personal certificate or the password to other persons.

Prices

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),
and

0.50 EURO per page, beginning with the 11th page.

Page numbers are found in the contents of the publications.

Orders

Use our order form for PDF files or send your order informal per e-mail (pdf@pfeil-verlag.de). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

Handling

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webpage, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

Dieser Beitrag kann als PDF-Datei erworben werden.

Verfügbarkeit von PDF-Dateien

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an pdf@pfeil-verlag.de.

Die PDF-Dateien sind urheberrechtlich geschützt.

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

Preise

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

Bestellungen

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail (pdf@pfeil-verlag.de) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

Abwicklung

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
