

Decline in abundance and distribution of *Limbochromis robertsi* (Teleostei: Cichlidae), an endangered cichlid fish endemic to Ghana, West Africa

Anton Lamboj*

Limbochromis robertsi is an endangered freshwater cichlid fish species with a distribution limited to the upper tributaries of the Pra River in Eastern Ghana. The land cover in most parts of its range has undergone substantial changes. Deforestation and forest fragmentation in the Eastern Region of Ghana accelerated dramatically in the last 20 years, with the majority of the forest loss along the banks of rivers and creeks due to artisanal small-scale mining (primarily for gold) and agriculture. Field surveys showed a decrease in the total population of *L. robertsi* by more than 95 % from the early 1990s to 2021. A small population which has been found about 20 years ago in the Western Region of Ghana was not found again. Because of the great decline of the species a stronger conservation and conservation status for it are suggested, as well as breeding programs combining in-situ and ex-situ methods. Potential habitats for re-establishing populations of *L. robertsi* were also investigated.

Introduction

The cichlid *Limbochromis robertsi* (Fig. 1) is endemic to Ghana, West Africa. It has been known to occur in a number of creeks in the Eastern Region between the villages of Kyebi (also referred to as Kibi) and Asiakwa, mainly within the region of the Atewa Forest (Lamboj, 2000).

Further research on this endangered species (EN, according to IUCN – Dankwa et al., 2020) started in the early 1990s, mainly dealing with the ethology, distribution and generic position of the species (Lamboj, 1993) and later, adding some more systematic and phylogenetic aspects (Lamboj, 1997). For these studies, populations of the Black Krensen Creek and Red Krensen Creek – both close to Kyebi – and one additional creek nearby the village of Sagymase have been used.

In 1998 another small population was discovered in the Draw River Forest and the Ankasa River in the west of Ghana by U. Schliewen from the Zoologische Staatssammlung Munich (ZSM) who deposited the specimens under the catalogue numbers ZSM 20890 and ZSM 20894.

For the following years, no further studies or explorations targeting *Limbochromis robertsi* were undertaken. Only very recently, in 2016 and also in 2018, some additional explorations focusing on the distribution of the species were undertaken, revealing large changes in habitat structure (see Fig. 2) and a strong decrease of all populations around Kyebi, which was probably caused by increasing deforestation, road building and illegal gold mining in the greater Kyebi area and a subsequent high increase of human population size in this area (Lamboj et al., 2020).

Availability

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:
pdf@pfeil-verlag.de.

The PDF files are protected by copyright.

The PDF file may be printed for personal use. The reproduction and dissemination of the content or part of it is permitted. It is not allowed to transfer the digital personal certificate or the password to other persons.

Prices

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),
and

0,50 EURO per page, beginning with the 11th page.

Page numbers are found in the contents of the publications.

Orders

Use our order form for PDF files or send your order informal per e-mail (pdf@pfeil-verlag.de). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

Handling

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webspace, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

Dieser Beitrag kann als PDF-Datei erworben werden.

Verfügbarkeit von PDF-Dateien

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an pdf@pfeil-verlag.de.

Die PDF-Dateien sind urheberrechtlich geschützt.

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

Preise

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

Bestellungen

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail (pdf@pfeil-verlag.de) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

Abwicklung

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
