

# ***Danio dichromatus*, a new species of sexually dimorphic and dichromatic danio from the Malay Peninsula in Myanmar (Teleostei: Cyprinidae: Danioninae)**

**Ralf Britz\*** and **Sven Kullander\*\***

*Danio dichromatus* is described on the basis of specimens from Myanmar in streams in the lower Tanintharyi River basin near Myeik and Palaw, and the Dawei River drainage near Dawei. It has been marketed as an ornamental fish under the names ‘Yellow Hikari’ and ‘Blue Hikari’. *Danio kerri* and *Danio dichromatus* are similar in body shape, mensural and meristic data, and pattern of tubercles on the lower jaw and infraorbital ossicles. The male *D. dichromatus* is unique in the genus in the abbreviated P stripe. *Danio kerri* is reported from islands in the Phang Nga bay, Kra Buri, and the Palian River drainage in Thailand; and the Langkawi Island in Malaysia.

## **Introduction**

Sexually dimorphic keratinised nuptial tubercles occur throughout the cypriniform order. In most species the tubercles are concentrated to the head and anterior part of the body, and may be restricted to the male (Wiley & Collette, 1970). Tubercles were reported from several species of danionin cyprinids – the genera *Danio* Hamilton, 1822, *Devario* Heckel, 1843, and *Betadevario* Pramod, Fang, Rema Devi, Liao, Indra, Jameela Beevi & Kullander, 2010. In most of these species, tubercles are present on the lower jaw in both sexes whereas tubercles on the dorsal face of the pectoral fin are found in the male only (e.g. McMillan et al., 2013; present paper). Species of *Danio* and *Sundadanio* Kottelat & Witte, 1999 (*incertae sedis*

in Danioninae) are characterised by a projection of the dentary supporting an anterolateral fleshy pad. Tubercles are present on the fleshy pad in both sexes but may be relatively larger in the male than in the female (Fang, 2001, 2003; Conway et al., 2011; Rodriguez, 2013). There are few published observations of sexual dichromatism among species of *Danio*. Field observations do not note live colours and observations published in aquarium literature typically describe the male and refer to the female as less colourful (e.g. Sterba, 1959; Meinken, 1961).

*Danio kerri* Smith, 1931, is a small species only recorded from offshore islands in southern Thailand. It has been noted for sexual dimorphism in the profuse development of tubercles on the head of the male (Smith, 1931, 1945). *Danio ‘Hikari’*, is

with a maximum at 17 ka, when sea levels were down to 120 m lower than present (cf. Voris, 2000).

Because the Tanintharyi coast has similar archipelagoes as the adjacent Malay Peninsula, we predict that *Danio dichromatus* will also be found on islands. The only other island occurrences of *Danio* have been identified as *Danio alboleatus* and recorded from Koh Samui off Surat Thani in Thailand, Koh Chang in the Gulf of Thailand (Chitrakarn & Indrambarya, 1932; Smith, 1945), and Lankawi Islands (Amirrudin & Lim, 2006).

Besides the species listed above, the only other species of *Danio* reported from Sundaland is *Danio tweediei* Brittan, 1956. It has been recorded with certainty only from the type series, collected near Penang (Brittan, 1956). Brittan's photograph and description of the colour pattern suggest that *D. tweediei* is a synonym of *D. alboleatus* or *D. pulcher* (paratypes of *D. tweediei*, examined, USNM 163996 and CAS 48131, are small and decoloured, and not informative with respect to discriminating chromatic characters). Kottelat et al. (1993) synonymised *D. tweediei* with *D. alboleatus*. *Danio alboleatus* was described from southeastern Myanmar and has been reported from Thailand, Laos, Cambodia, Malaysia, and Sumatra in Indonesia (Weber & de Beaufort, 1916; Mohsin & Ambak, 1983; Kottelat et al., 1993; Rainboth, 1996). The identity of the Sumatran *Danio* has not been confirmed, however.

### Acknowledgements

We thank James MacLaine and Oliver Crimmen, Natural History Museum, London, for support and access to material under their care. RB also thanks both and Eleanor Adamson, The Fishmongers Company, London for companionship during field trips to Myanmar, on which the type material of *Danio dichromatus* was collected. U Tin Win, Daw Tin Pyone, and Ye Hein Htet, Hein Aquarium, Yangon, were instrumental in organising the respective collecting trips and relevant permits. We are grateful to Jens Kühne for providing the photograph of live *D. kerri*. We thank Hiranya Sudasinghe, Naturhistorisches Museum Bern, Switzerland, for his expert help in creating the map. An anonymous reviewer provided critical comments, which greatly improved our manuscript. We thank the editor, Paulo Lucinda, for the careful reading of and comments on our revised manuscript.

# **The whole contribution can be purchased as PDF file.**

## **Availability**

Generally all our publications are available as PDF files; full publications as a general rule after the printed version is out of print. If you have questions concerning particular contributions please contact us by e-mail:  
[pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de).

## **The PDF files are protected by copyright.**

The PDF file may be printed for personal use. The reproduction and dissemination of the content or part of it is permitted. It is not allowed to transfer the digital personal certificate or the password to other persons.

## **Prices**

Books: Prices are to be found in the catalog.

Articles in journals and single contributions or chapters in books:

10 EURO basic price per order (including the first 10 pages),  
and

0,50 EURO per page, beginning with the 11<sup>th</sup> page.

Page numbers are found in the contents of the publications.

## **Orders**

Use our order form for PDF files or send your order informal per e-mail ([pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de)). The only accepted payment is by credit card. While using the order form for PDF files, your data will be transmitted by secure link (ssl). You also may send the informations informally by e-mail, fax, phone or mail.

## **Handling**

As soon as possible, depending on our business hours and your order, you will receive your PDF file together with the certificate and password by e-mail.

Larger PDF files can be downloaded from our webspace, if necessary.

Your invoice will be sent out by e-mail after we charged your credit card.

To open the encrypted PDF files you have to install your personal certificate after your first order. All PDF files with the same certificate can be opened from that time on.

# **Dieser Beitrag kann als PDF-Datei erworben werden.**

## **Verfügbarkeit von PDF-Dateien**

Prinzipiell sind von allen unseren Publikationen PDF-Dateien erhältlich. Komplette Publikationen in der Regel erst nachdem die gedruckte Version vergriffen ist. Anfragen bezüglich bestimmter Beiträge richten Sie bitte per E-Mail an [pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de).

## **Die PDF-Dateien sind urheberrechtlich geschützt.**

Ein Ausdruck der PDF-Dateien ist nur für den persönlichen Gebrauch erlaubt.

Die Vervielfältigung von Ausdrucken, erneutes Digitalisieren sowie die Weitergabe von Texten und Abbildungen sind nicht gestattet.

Das persönliche Zertifikat und das Passwort dürfen nicht an Dritte weitergegeben werden.

## **Preise**

Bücher: Die Preise sind dem Katalog zu entnehmen. Zeitschriftenbeiträge und einzelne Kapitel aus Sammelbänden bzw. Büchern:

10 EURO Grundbetrag pro Bestellung (einschließlich der ersten 10 Seiten),  
und

0,50 EURO pro Seite ab der 11. Seite.

Den Umfang der Beiträge entnehmen Sie bitte den Inhaltsverzeichnissen.

## **Bestellungen**

Bestellungen sind mit dem PDF-Bestellformular oder formlos per E-Mail ([pdf@pfeil-verlag.de](mailto:pdf@pfeil-verlag.de)) an uns zu richten. Die Bezahlung ist ausschließlich per Kreditkarte möglich. Bei Verwendung unseres Bestellformulars werden die Kreditkartendaten über eine gesicherte Verbindung (ssl) übermittelt. Sie können die Daten aber auch formlos per E-Mail, Fax, Post oder telefonisch übermitteln.

## **Abwicklung**

So bald wie möglich, aber abhängig von unseren Bürozeiten und der gewünschten Bestellung, schicken wir Ihnen die PDF-Datei(en) zusammen mit Ihrem persönlichen Zertifikat und dem zugehörigem Passwort per E-Mail. Größere Dateien bieten wir Ihnen gegebenenfalls zum Herunterladen an.

Der fällige Betrag wird von Ihrer Kreditkarte abgebucht und Sie erhalten die Rechnung ebenfalls per E-Mail.

Um die verschlüsselten PDF-Dateien öffnen zu können, muss bei der ersten Bestellung das passwortgeschützte persönliches Zertifikat installiert werden, welches anschließend auf dem Rechner verbleibt. Alle mit diesem Zertifikat verschlüsselten Dateien können anschließend auf diesem Rechner geöffnet werden.
